Jack Noble appointed as Managing Director of UTS Biogas Ltd.

The UTS group of companies is happy to announce that Jack Noble was appointed as Managing Director of UTS Biogas Ltd. to further promote the international business of UTS Biogas in Europe. As of January 19, 2012, he started his managing position at the UK office in Leeds, West Yorkshire.

After working in the water industry for nearly 20 years, Jack Noble decided to switch to the fast growing biogas business. In the course of his professional life he has worked in research, for contractors and product suppliers both in the UK and the rest of the world. After his studies in Environmental Studies at Leeds University, he joined Biwater Treatment Ltd and then Purac where he worked in many functions from design through execution and commissioning. He joined ZENON UK in 2001 and was appointed as Managing Director in 2003. ZENON were acquired by General Electric in 2006. At GE Water & Process Technologies he worked as Engineered Systems Sales Leader Europe & Africa.

"I am very much looking forward to the challenges the UK biogas market is offering," says Jack Noble about his new assignment. "After a challenging start for UTS Biogas in the UK biogas market, facing quite a number of obstacles given

by the local legal situation, we are an extremely motivated team to deal with an increasing number of potential customers being interested in the both reliable and profitable technology and services UTS is offering them."

Dr. Thomas Buer says, "With his extensive knowledge in anaerobic digestion and wastewater technology - most of which he won in countries like UK, Africa and India - Jack is the perfect candidate to turn our subsidiary into a UK market leader. The UTS group of companies has been constantly growing and we are sure that with the appointment of Jack Noble as Managing Director of UTS Biogas Ltd., this development can be further fostered."
